SUMMARY

Aspiring Odoo Developer proficient in Python and Django, with a keen eye for detail and a collaborative mindset. Eager to contribute to ERP projects and others, learn and grow within a supportive team environment as a developer. Exciting to upgrade to next level such a data analyst. I've worked as both an IT Support and a developer. So, I'm all about providing assistance and making sure customers get exactly what they need and want, leaving them totally satisfied.

PROFESSIONAL EXPERIENCE

Housekeeper

Transguard - RTA Metro | August 2024 - present

Station and Train Cleanliness: Maintain a high standard of cleanliness across platforms, waiting areas, escalators, elevators, ticketing areas, and trains. Public Restroom Maintenance: Ensure restrooms are sanitized regularly and stocked with necessary supplies. Waste Management: Empty trash bins and recycling containers frequently to keep stations clean and organized. Surface Sanitization: Regularly wipe down high-touch surfaces like railings, ticketing machines, seats, and elevator buttons to ensure hygiene. Customer Assistance: Assist passengers by guiding them to facilities or offering directions within the station. Reporting: Notify supervisors of any safety hazards, maintenance needs, or supply shortages to maintain smooth operations. Lost and Found Coordination: Support in managing lost items as part of customer service.

Developer

Myanmar Information Technology | September 2022 - April 2024

As an integral member of the team at the company, I collaborate closely with senior developers on Odoo projects, contributing to the enhancement and customization of various modules. Specializing in Odoo 15 Community Version, my role revolves around implementing new reports, essential functions, and fields, particularly for projects such as Workshop (Fleet) and Hotel Management System (HMS).

Internship

Myanmar Information Technology | July 2022 - August 2022

As an Odoo Developer Intern, I customized modules to meet client needs, collaborated on feature implementation, and assisted in issue resolution. I documented processes, provided support, and developed my Python skills.

IT Support

Kangle (Kyan Sit Min) | February 2021 - May 2022

As an IT support worker at the company, I played a pivotal role in ensuring smooth operations through installation software management and meticulous maintenance. My responsibilities extended beyond traditional IT support, encompassing crucial support for our marketing team and administration of the company's social media platform.
